

IES Salvador de Madariaga. A Coruña. Spain

Activity	Civil Action in the Community
Date	June, 2011

Activities during the event

People from the charity come to school for a presentation on their work: reception of immigrants, information and legal orientation, Spanish lessons, job training, loans for small businesses in their countries...

Unfortunately, this activity could not take place as planned, since the charity did not have any staff available, so we took the students to their facilities, and there we were introduced to their work.

Students visit Equus Zebra's facilities (June 7th)

According to schedule, two groups of our 4th grade students (15 years old) and 4 teachers visited Equus Zebra's premises on June 7th. There, we were explained about their history and objectives, their activities, their volunteering program while we visited the different offices, classrooms, library and computer room. For more information, visit the link: [equus zebra website \(in Spanish\)](#)

"All different, all equal" in Spanish and Arabic. Equus Zebra's motto.

Students and teacher starting their visit at Equus Zebra.

The founder and president of Equus Zebra Coruña tells us about their history, activities and other aspects of their work.

Fraternity activities (football game) (June 10th)

As a follow-up, students played a football game with people from other countries living in our city, and had dinner together.

Fraternity game between our students and immigrants

They have dinner together after the game

Solidarity march.

Again, this activity had to be cancelled because of budget problems. In previous years, our school took part in the various activities organized by several civic organizations, which helped to arise consciousness about the situation of immigrants in our community. But, unfortunately, this year economic crisis led to cutting off the money for these events.
